

**Key Learning: To convert between g, kg and tonnes**

**Units of mass**

Match each item to the scale showing its mass. How many ways can you record the mass? Think of other items with a similar mass.

Rio Olympic gold medal

Weightlifting world record.  
The mass of the barbell

Minimum mass of cycling track bike  
(just the bike not the cyclist)

Minimum mass of a quadraple rowing boat  
(just the boat, not the rowers).
